The new Cleary Company office on Old Henderson Road - Coming Spring 2019

## The Cleary Company Treating Clients Like Family For 25 Years

There's an unexpected relationship that forms when working with The Cleary Company. "Once clients hire us, they become part of our family," says owner George Cleary, CR. The Cleary Company was founded in 1994 remodeling homes in Upper Arlington and Clintonville. Its focus started and continues to be on building a client base through personal relationships.

The truth about home remodeling is that it can be a hard, messy process, but

treating clients like family helps ensure the final product and the client experience is exceptional. The Cleary Company's ability to stay connected, coupled with an incredible team of skilled professionals, helps create client satisfaction and, in most cases, clients for life. In fact, over 60 percent of the company's projects built in 2018 were from repeat clients and

referrals.

A vital part is learning about clients' personal tastes, budgets and lifestyles. The Cleary Company gains in-depth understanding of clients' greater visions for their homes and their lives. The mission of The Cleary Company ensures that each client has the opportunity to have a better life through our unique remodel-design-build process while also taking the time to have fun while doing each project.

Part of that fun factor is including every family member when remodeling. Russell, George's golden retriever and best buddy, is always the official greeter at the office. He inspires creative ways to ensure each member of a family has a positive experience with Team Cleary.

George sums up these first 25 years in just three words: Thankful, grateful and blessed. As The Cleary

Company celebrates its 25th anniversary milestone, the business is excited to announce it will move to 989 Old Henderson Road in the spring of 2019. The Cleary Company has been bursting at the seams in its current location and is thrilled that when construction is complete at its new building, employees will have a new design library with more products and finishes from our most trusted partners.

The Cleary Company appreciates all of the relationships built these past 25 years. It is our clients who provide us the purpose and opportunity to share our craftsmanship to enhance their lives!
